1. Claude Haiku 5.5 now available on AI Gateway

Claude Haiku 5.5 from Anthropic is now available on AI Gateway.

Evidence: It is built for high-volume, cost-sensitive tasks such as summaries, context compaction, database queries, and classification, and works as a subagent alongside larger Claude models on coding work.

Impact: It is also the fastest Claude model at standard speed, which suits live customer support and browser use.

Watch next: watch availability, limits, and real usage.

2. Cline: CLI v3.0.69

MCP servers launched with npx or uvx on Windows now load.

Evidence: They often took longer than the 3-second startup limit and were silently dropped, so their tools never showed up.

Impact: Teams can evaluate the documented Cline workflow before wider rollout.

Watch next: watch docs, endpoint access, and developer limits.

3. Vercel: Glyph Cluster is now available in stealth for free on AI Gateway

Glyph Cluster is now available on AI Gateway as a stealth model for teams on Pro and Enterprise plans with purchased AI Gateway credits.

Evidence: It is free to use during the stealth period.

Impact: Teams can evaluate the documented Vercel workflow before wider rollout.

Watch next: watch availability, limits, and real usage.

AI Daily

This is AI Daily. Here are the key changes and primary source details.

Claude Haiku 5.5 from Anthropic is now available on AI Gateway. It is built for high-volume, cost-sensitive tasks such as summaries, context compaction, database queries, and classification, and works as a subagent alongside larger Claude models on coding work. It is also the fastest Claude model at standard speed, which suits live customer support and browser use.

MCP servers launched with npx or uvx on Windows now load. They often took longer than the 3-second startup limit and were silently dropped, so their tools never showed up.

Glyph Cluster is now available on AI Gateway as a stealth model for teams on Pro and Enterprise plans with purchased AI Gateway credits. It is free to use during the stealth period. Glyph Cluster is a reasoning model for coding and long-context analysis, and handles multi-step work such as planning, synthesis, quantitative reasoning, and comparing material across large inputs.

GitHub Daily

GitHub Curated Picks for 2026-10-07. Lead pick: Kubescape.

Kubescape is an open-source Kubernetes security platform that provides comprehensive security coverage, from left to right across the entire development and deployment lifecycle. Kubescape provides a detailed security posture overview. The captured commit fixes file permission warnings in the H T T P handler tests. It is dated October 7, 2026.

axios is heavily inspired by the $http service in AngularJS. It provides a standalone $http -like service for use outside AngularJS. Axios is a promise-based HTTP client for the browser and for Node.js. The captured commit decodes percent-encoded data URLs. It is dated October 6, 2026.

Recheck Kubescape releases, commits, and issue health. Compare license status and open issues before the next adoption decision.
