### 1. Vercel AI SDK publishes ai@7.0.153

5475347: Fix non-streaming Responses API structured output failing when multiple assistant messages contain JSON.

Evidence: Providers can supply separate structured-output text for parsing, allowing OpenAI and Azure Responses models to select the last final_answer while preserving all generated content, annotations, conversation history, and token usage.

Impact: Teams can evaluate the documented Vercel AI SDK workflow before wider rollout.

Watch next: watch docs, endpoint access, and developer limits.
